ACCA, CGMA, CFA® - professional qualifications are now the market standard. We know how to effectively prepare for these exams, because we have been doing it for years. The cutting-edge online platform BPP HUB allows to learn at students' own pace with extensive support from our trainers. Our learning methodology - BPP Momentum - is built around a series of tests that continuously verify the acquired knowledge and identify areas for improvement.

We provide courses to every paper in all exam sessions organized by associations. We deliver training in two formats: interactive Online Classroom Live with live webinars and flexible Online Classroom. In both types of training, the student is provided with an extensive library of recorded training sessions, online learning materials, including eBooks, and continuous contact with his trainer and other trainees.

In addition to courses, our offer includes ACCA and CGMA study materials (in the traditional hard copy versions and eBooks), as well as additional support for ACCA students in the form of an administration service, where the student focuses only on studying, and we handle all the formalities of registering with ACCA, registering for exams and paying fees on behalf of the student.
